

Turnkey System

FAST2 SYSTEM

Economical entry into Amperometry

- Amperometry from up to 2 independent channels.
- Analytes: Glutamate * Choline * Glucose * Nitric Oxide

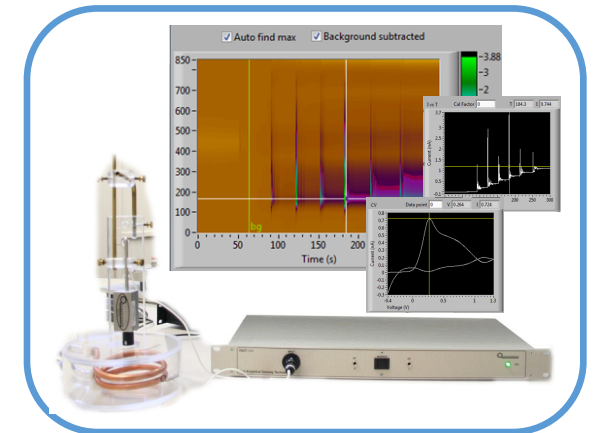

Turnkey System

FAST 16mkIII SYSTEM

Fast and versatile data acquisition

- Amperometry, chronoamperometry from up to 8 independent channels.
- Simultaneous LFP recordings.
- Analytes: Glutamate * Dopamine * Acetylcholine * Choline * Serotonin * Glucose * Lactate * Nitric Oxide * others via indirect enzymatic or direct oxidation

FAST-CV SYSTEM

Fast-Scan Cyclic Voltammetry

- 2 channel FSCV system.
- Analytes: Dopamine * Serotonin * Norepinephrine * Adenosine and many others.
